## SHELF-READY

Attractive packaging, appealing to the consumer, backed by a recognizable, dependable brand

Since the beginning, we at Lipman Family Farms have dedicated our work to sustainable growing, and continuously improving our practices.

We are proud to introduce our carefully curated compostable clamshell for our organic grape tomatoes. This packaging offers composability and recyclability, ensuring your customers can shop sustainably and guilt-free.

Our packaging has been uniquely produced to offer visibility to the product and attract consumers of conscious purchasing.

Our goal at Lipman is to continuously decrease our footprint in every level of our supply chain—will you join our fight for a better Earth?
